

## **BEAVER CREEK PIEDMONTESE SUMMER 2019 SALES LIST**

All breeding bulls and old ladies available 2019 are sold

### **HEIFERS**

Only two year old, confirmed pregnant heifers are sold. This insures the heifer is breedable and is bred to a suitable bull, either AI to an Anaborapi bull or bred to an Anaborapi sired bull.

Piedmontese heifers should not be bred before 20-24 months of age to insure they are of adequate size to breed, calve, and continue to produce until 13-15 years of age.

ONE AI bred two year old heifer is available.

BCP 599 is a Quantum-Oslo granddaughter dob 5-8-2017 est bw 65 she is ai bred to Anaborapi bull Zirlo who has excellent epds and is very heifer safe.

BCP 549D sired by BCP Magnifico by Quesito out of a Delano daughter.

An exceptionally bred Fullblood Piedmontese

She is a THREE year old due to calve August 2019

DOB 3-27-2016. Nice, long, big butted heifer.

Bred to BCP 584 by Quebec out of Hugo-Delano granddaughter.
